

ROAD BUILDING PROGRESS SLOW

County Contractors Have Finished Only Five Miles This Season.

DELAYS ARE NUMEROUS

Mason And Hanger on Lincoln Highway Leads in Number of Feet of Concrete Laid.

That the shortage of road building material and congested freight traffic has seriously hampered the contractors who are constructing five stretches of Adams county highways is shown in a statement made by George Crawford, chief engineer of this district of the State Highway Department. Only little more than 25,000 feet of highway has been completed during the present road building season. The amount of paving completed represents only one-sixth of total miles now under contract in the county.

In addition to the five contracts within the county limits, a portion of the Souder Construction Company job on the Lincoln Highway west which extends into this county has been completed.

Not only did shipping delays slow up construction, but the problem of securing labor was a difficult one. There is not a contractor in the county that has not been held up at one time or another from ten days to two weeks because of a lack of material or labor trouble. If the rate of building for the first five months of the season is a criterion for the future work, the twenty five miles remaining to be built in the county will not be completed before 1922.

Men who have been studying road construction work, however, point out that conditions for building are improving rapidly and that the two remaining months of the season are looked upon as the best of the year. A representative of a well known material manufacturing company here states that many of the mills are now able to supply ninety per cent of the orders.

Mason and Hanger, builders of the Lincoln Highway west have poured the largest number of feet of concrete of any contractors in the county, according to the figures of the Highway Department. They have laid 9611 feet of concrete of their job which extends from Gettysburg to

SOLDIERS STOLE WHEELS

State Police Nab Men at Taneytown.

Two soldiers who admit they are absent without leave from Camp Dix were arrested late Thursday at Taneytown by the State Police and later lodged in the county jail, charged with stealing the bicycles of William Beales Jr., and John Biggins. The thefts were made Thursday morning at the Meade School where the boys had left them while attending classes. At noon the theft was reported to Officer C. A. Fox, who informed the State Police. After searching several roads south of town the police found the men in Taneytown.

The men give their names as Thomas W. Hart and James A. Cassidy. They protest they are not deserters but admit they have no leave of absence. The soldiers had been in town for several days.

The bicycles were returned to their owners.

OFFSETS DANGEROUS

Members of the highway committee of the Town Council are devising a plan to get rid of the two-inch offset in certain pavements of town caused by the removal of the iron gutter crossings when Chambersburg and York streets were paved.

TWO BRIDGES IN COUNTY ACCEPTED

Commissioners on Inspection Tour. Accept Merdinger Bid on New Bridge.

Inspectors appointed by the Adams County Court have accepted the bridge over Bermudian Creek near to Bupp's Mill in Latimore township, and the one over Rock Creek, on the Harrisburg road, in Straban-township. W. H. Drawbaugh, Dover, York county, had the contract for construction of each structure.

W. H. Johns, Leroy Rife and J. C. Thomas were the inspectors appointed by the Court for the Bermudian Creek bridge. The original contract given out by the preceding Board of Commissioners in December 1919, called for a construction price of \$11,000. The present Board revised the specifications, reducing the cost to \$4512.48.

The Rock Creek bridge on the Harrisburg road was contracted for in October, 1919, at a cost of \$7300. The inspectors on this job were Levi Diehl, Eugene Shriver and William Eline.

The Commissioners have accepted the bid of George Merdinger to build the bridge over the Bermudian Creek near to the Gil Emmert farm, on the Harrisburg road.

The bid of W. H. Drawbaugh, Dover, York county, for the bridge over Middle Creek on the Emmitsburg road in Freedom township, was rejected by the Commissioners. The bid was too high above the estimated cost. No other bids have been submitted.

CUPID A TRICKSTER

Brings Dusky Beauty to Wed York White Man.

Cupid played a shabby trick on Adam Stayman, of West York, and Bertha Osmont, of Cleveland, Tenn., in York, Thursday, when both discovered that no love is so blind as the mail order variety. Stayman some time ago replied to Miss Osmont's advertisement in a matrimonial journal and, after a correspondence, at the conclusion of which he sent her fare, the bride-to-be agreed to come to York. Stayman was at the station, but failed to see any one he thought might be his sweetheart. Miss Osmont arrived on schedule time, but failed to notice any one she thought might be the man of her choice, so went to police headquarters for assistance.

A policeman found the waiting lover and Stayman almost collapsed when he saw before him an ebony belle. He, a white man, never had considered the possibility that the feminine seeker after matrimony was herself any other color. Miss Osmont was no less surprised. As she was without funds, employment was found for her and Stayman agreed to lose the amount of her fare to York.

TO TRY ROBBERS

Date Set For Sandy Springs Trial In Fredrick.

Trials of the alleged Sandy Springs robbers and murderers of Francis M. Hallowell, a director of the bank, will open on Monday morning, September 27 in Frederick. This date was fixed Thursday.

Originally it had been planned to open the cases on Tuesday, September 28, but because of the belief that the trials will last a full week it was decided to move the date up one day in hope that the hearings would be completed within the week. It is understood that about 50 witnesses will be called. Considerable difficulty is expected in obtaining a jury.

COMMISSIONERS ORDER TABLET

Manufacturers Requested to Have Memorial Here For Armistice Day.

ONE MORE NAME ON LIST

County Legion Posts to be Invited to Attend Dedication. To Present Medals at Same Time.

Adams county's tablet to the service men who gave their lives in the World War has been ordered by the Commissioners, with instructions to the manufacturers to complete the work so that the memorial may be erected on Armistice Day. The suggestions concerning the inscription on the tablet made by the Albert Lentz post of the American Legion were accepted by the board at their short meeting this week before they left to view the bridge at Bupp's Mill over the Bermudian Creek which has been completed.

Only one name was added to the official Legion list of fifty two names recently published in THE TIMES. The name of John A. Dekker, a soldier who came here in 1917 with the first troops, will be placed on the memorial. The young soldier gave his residence as Gettysburg and as his family lives in Holland, the Legion agreed that his name should be honored here. Dekker joined the local Presbyterian church while in Gettysburg and was an active church worker during his service at the local camp.

Fifty three names were certified to the Commissioners by the local post and will be forwarded with the order to the tablet manufacturers. The word "boys" when referring to the Adams county service men will be used instead of "men" at the request of the Legion.

The tablet which will cost \$323 is of bronze two feet, two inches wide, and is three feet, ten inches long. It is to be erected on the Court House plot. In speaking of the action the Commissioners said they desired the Legion posts of the county to join in a celebration here November 11, Armistice Day, at which time the tablet would be dedicated with formal ceremonies. According to plans now being considered by the local post the unveiling of the honor-roll tablet will be combined with the presentation of the victory medals to those soldiers, sailors and marines who make application.

PEDDLER IN JAIL

Man Caught Near New Oxford Held.

The button peddler who gives his name as George Long and his address as Erie, who was arrested on Tuesday night by Chief of Police Crabb, of Hanover, on suspicion that he was guilty of robbing the house of Mr. and Mrs. Roy Staub, rear Fourth street, last Tuesday morning while the Staub's were working, was committed to the county jail at York Thursday by Chief of Police Crabb. A warrant charging Long with burglary was sworn out against him by Mr. Staub and he will be held for a hearing on the charge.

WOMAN TAKES OUT LICENSE

Mrs. Grover Myers, Gardners Station, Secures Hunting Permit.

Mrs. Grover Myers, of Gardners Station, is the first Adams county woman to take out a 1920 hunter's license, according to County Treasurer Roy E. Zinn. Mrs. Myers secured license No. 261. Mrs. Myers hunts deer, quail, rabbits and squirrels.

The number of licenses issued steadily continues to mount. Fifty have been issued in the last week. To date, two hundred and eighty three hunters have secured their 1920 license.

FARMERS LOST MONEY ON CROPS

Labor Shortage Threatens America's Food Supply, Professor Says.

(By Associated Press) New York, Sept. 10.—Shortage of labor in the agricultural states is resulting in a reduction of acreage which threatens America's food supply according to the findings of Percy F. Walker, dean of the Kansas University engineering school, made public today at national headquarters of the American Society of National Engineers. The Dean is head of a research committee of the Mid-Continent Section of that society.

Dean Walker found population at a standstill or declining in agricultural sections, pointing out that 16 of the 105 counties in Kansas prevented that state from decreasing in population in a decade, the increases all being in industrial sections. "The same thing holds good in Iowa and doubtless in other states for the same period," the Dean reported.

Many farmers cannot pay their 1919 debts because the railroads are unable to move their wheat harvest, and they are piling down production, he said.

As a remedy, Dean Walker suggested a study by engineers of the economics of transportation and production with a view to systematizing a national fitting of enterprises to localities. This, he thought, would work out better distribution of population where needed and would prevent continued inability of the transportation systems to meet the demands upon them.

PLAN NEW SCHOOL COURSE

Americanization To Be Emphasized In Public Schools.

Plans for a course in practical Americanization for the schools of Pennsylvania are being given out by Dr. Thomas E. Finegan, state superintendent of public instruction and will shortly be submitted to the governor for his criticism. The subject has been under consideration for some time and in addition to the experience which he had in New York State Dr. Finegan has been securing information as to what plans were followed in other commonwealths.

Conferences with men who have studied the subject and been engaged in Americanization work in cities and industrial centers of this State have been held this week.

DEATH CLAIMS TOWN RESIDENT

Widow of John C. Lower Died at Residence of F. Mark Bream.

WAS ILL SINCE LAST MAY

Typhoid Fever Causes Death of William McCleaf, Fairfield. Sick For Eight Weeks.

Mrs. Sarah Catherine Lower, one of the best known older residents of Gettysburg, died at the home of her son-in-law, F. Mark Bream, Carlisle street, Thursday night at 11:45 o'clock from a complication of diseases. She was born nearly seventy eight years ago in Cumberland county.

In July of this year Mrs. Lower suffered a fracture of the left leg. She had been ill since May and the accident made her condition critical. The fracture occurred when Mrs. Lower, in attempting to rise, shifted the weight of her body from the right to the left leg. Owing to her weakened physical condition the bone was not set for several days.

Mrs. Lower was the wife of John C. Lower, who died December 31, 1917. Mrs. Lower made her home with F. Mark Bream for the last twenty four years as did Mr. Lower until the time of his death. The deceased was the last member of the family of Mr. and Mrs. Jacob Plank. Her father had the distinction of inventing one of the first plows to be used in this section. Before the days of steel plows Mr. Plank devised a wood plow that was used extensively in this and adjoining states.

She is survived by one daughter, Mrs. F. Mark Bream, Carlisle street. Mrs. Lower was a member of the Trinity Reformed Church, of Gettysburg.

Funeral Sunday afternoon at 2 o'clock with services conducted by Rev. Paul R. Pontius, pastor of the Reformed Church. Interment in Evergreen cemetery.

WILLIAM MCCLAF

Typhoid Fever Causes Death of Fairfield Man.

William McCleaf, of Fairfield, died at his home Thursday afternoon from typhoid fever. He was 58 years, 10 months and 9 days old. Mr. McCleaf had been ill for a period of about eight weeks.

The deceased is survived by his wife and the following sons and daughters: Clain McCleaf, Iron Springs; Mrs. J. E. Strawn, Butte, Montana; Mrs. J. E. Seiford, Highfield, Maryland; Hoy McCleaf, Biglerville; Mrs. Marshall Slonaker, Fairfield; and John, Ernest, Marie, Roan, Lake, Ivy, Mary, Esther, Louisa, at home.

Mr. McCleaf is also survived by the following brothers and sisters: D. R. McCleaf, J. M. McCleaf, Andrew McCleaf, Samuel Steward McCleaf, of Fairfield; Mrs. Harry Fagan, Carlisle; and Miss Alice McCleaf, of Atlantic City, New Jersey.

Funeral services at the home of the deceased Saturday afternoon at 1 o'clock. Interment in the Union Cemetery, Fairfield.

GAME OUTLOOK IS NOT PROMISING

Deer And Squirrels Scarce Observers Say. Quail And Rabbits Plentiful.

According to advance reports from Adams county's great game centers, there will be an abundance of rabbits and quail but a lack of squirrel and deer in the 1920 season.

Quail have multiplied for the past several years due to the open winters, closed season and protection from the farmers. At the time Pennsylvania closed the season on the bird in an effort to prevent extermination, there were only a few scattered coveys in Adams county. Districts were restocked and a war waged upon the destroyers of the bird—fox and hawk—and Adams once more has quail hunting.

Rabbits are said to be extremely plentiful. The short open season of 1919 and the dry spring of this year probably accounts for this condition. A great many old rabbits were left for breeding purposes and the young did not drown in the April showers. At the same time the new law which requires dogs to be tied up is an added protection. In previous seasons about half of the young rabbits were killed before maturity by out-law dogs.

Squirrels are not plentiful. For several years the nut crop has been a failure in this section. The squirrel is a migratory animal. When the food supply fails they move. This may account to some extent to the scarcity in this section. Probably back of it all lies the constantly diminishing of the timber lands in this county. The squirrel is not like some animals in his ability to adapt himself to conditions. Where there is no timber, there is no home for the gray tail. And in the course of a few short years—the gray squirrel will follow the footsteps of his black brother.

From South Mountain comes the report that deer will be scarce this year. The largest herds reported to date number only about a half dozen. Game wardens say the hard winter caused the death of great numbers. Five were found dead along one brook near Cashtown last winter, according to a native of that place.

REFUSE MINERS' REQUEST

(By Associated Press) Washington, Sept. 10.—President Wilson in a telegram today to representatives of the anthracite mine workers in Pennsylvania refused to grant their request to reconvene the joint scale committee of operators and miners for the purpose of considering a new wage award.

The President declared that when a body of men collectively refrained from working by any mutual understanding, however arrived at, it was a strike, no matter what name given it. A majority of the anthracite miners had refrained from work under the guise of taking a vacation, the President said, and he told the committee that while he appreciated the earnestness of its efforts to get the men to return to work and commended its stand in the support of contract obligations, but in spite of this, declared his unwillingness to reopen the wage question.

FORM REJECTED SAYS MR. UPHAM

Republican Treasurer on Stand Before Senate Investigating Committee.

OPPOSED LARGE GIFTS

Republican Committee Decided to Accept Only \$1,000 Contributions. Mr. Upham Presents Figures.

(By Associated Press) Chicago, Sept. 10.—Fred W. Upham today told the Senate committee investigating campaign funds that he took full responsibility for the proposal to raise the limit of Republican campaign contributions to \$10,000 from \$1,000.

"I was voted down by a large majority at a meeting in New York," he said.

He stated "form 101", the so-called "Blair plan", was brought about by his advocacy of a larger contribution limit and was prepared after he had told Harry M. Blair, his assistant, that he believed the \$10,000 figure would be adopted after the national convention had ended.

"They voted me down by a big majority and I stepped from the room and told Mr. Blair to telegram his men in Chicago not to send out form 101."

"Two days later," continued Mr. Moore, "Colonel William Boyce Thompson, of New York, went to Washington and saw Senator Harding and the candidate gave out a statement to the Associated Press that he had instructed the Republican national committee not to accept contributions of more than \$1,000 each, promising that if any changes were made in the plan the public would be notified before it was put into effect."

Mr. Upham presented figures on pre-convention receipts and expenditures, his previous testimony being limited to the period after the national convention. Today's testimony showed more than \$1,000,000 had been spent for publicity, headquarters and other national committee expenses between December 1, 1918, and July 12 of this year.

"There was no campaign on in that period," suggested Senator Kenyon. "There is always a campaign on where Will Hays is in charge," said Mr. Upham. "An hour after he was elected Republican national chairman he telephoned me on the long distance and asked me to try and raise some money."

Senator Kenyon called Edmond Moore, Governor Cox's personal representative, to the stand and questioned him about Democratic campaign funds plans and particularly if help may have been received from liquor interests.

Mr. Moore said the Democrats had not formed a campaign plan and had only \$14,000 in the national treasury two weeks ago.

Mr. Moore hoped the questioning of the Republican members was not an attempt to inject a wet and dry issue into presidential campaign.

Senator Spencer said he was merely trying to learn whether liquor interests had been contributing to the Cox campaign fund and Mr. Moore said he was sure they were not.

The committee announced that the investigation of the charges of Governor Cox would be completed here tomorrow and that the committee would then recess to meet in some eastern city on September 22.

POT OF GOLD WAS LAWYER'S LURE

Bergdoll's Guards on Trial For Permitting Slacker to Escape.

WANTED GROVER'S MONEY

Frank Ansell, Lawyer, Principal Witness at Trial, Secured Bergdoll's Chance to Make Escape.

New York, Sept. 10.—Behind the gold-hunting expedition of Grover Cleveland Bergdoll that gave him an opportunity to escape from a military guard in Philadelphia last May there stood the inspiring spectacle of a band of greedy lawyers with outstretched paws, ready to grab the money the moment the slacker unearthed it in the hills of Maryland, where the treasure was supposed to have been buried.

In the forefront of this legal outfit stood D. Clarence Gibboney, Philadelphia reformer, who has been Bergdoll's chief adviser ever since he ran afoul to the Government and especially the army. Gibboney has now turned against his client and referred to him as a "dastard" when he testified yesterday in the court-martial of Sergeant John O'Hara, who, with Sergeant Calvin York, is bearing the brunt of the responsibility for the escape of the draft dodger.

O'Hara went on trial Thursday morning at Governor's Island before a board of officers that in its makeup closely resembled the tribunal that found Bergdoll guilty of deserting the army in time of war and sentenced him to imprisonment for a term of five years—a sentence by the way that was cut short by the gullibility of the War Department when high officials gave ear to the tale of buried gold.

A half dozen or more witnesses appeared before the Court, but interest centered chiefly in the testimony offered by Gibboney, Samuel T. Ansell, a Washington lawyer whose influence with the War Department brought about the temporary release of Bergdoll, and James E. Romig, ex-Philadelphia magistrate, who for years has been the handy man and principal goat in all the trials and tribulations of the Bergdoll family.

Had an Eye on the Money

It was Ansell who brought out the fact that the lawyers, and especially Gibboney, had a weather eye on the money. Likewise it was Ansell, apparently disgusted with the case, who definitely connected Judge John W. Wescott, a former Attorney General of New Jersey, as one of the slacker's counsel. When Judge Wescott's name was first mentioned in connection with the Bergdoll scandal he emitted a howl of despair and denial that reached across the mosquito swamps of his State for many days. But Ansell, who was provost marshal general during the greater part of the war, testifying under oath, linked the Jersey jurist with the rest of the legal array in what he described as "an advisory capacity."

Several officers and non-commissioned officers gave O'Hara a clean bill of health as far as his conduct as a soldier was concerned. It developed during the trial that in his 20 years of service he never had a charge preferred against him until Bergdoll made his successful break for liberty. The sergeant is charged with negligence in the performance of his duty when he was detailed to guard the slacker.

Subpoenaed as a witness for the defense, General Ansell was called out of his turn early in the day in order that he might catch a train for Washington. At the outset of his testimony he declared that he had explicit confidence in Bergdoll. This faith in the slacker came about, he said, by reason of his conversations with Gibboney and Judge Wescott and was further strengthened when he met Bergdoll in his cell at the Island.

POLES TO CONFER WITH REDS IN RIGA

Letovia Has Given Guarantees Demanded by Russian Soviet.

Warsaw, Sept. 10.—Letvia has given the necessary guarantees to the Russian Soviet Government, and as a result, a Bolshevik peace delegation will go to Riga to meet Polish representatives, Prince Sapieha, Polish Foreign Tchitcherine, Russian Bolshevik Minister of Foreign Affairs. The latter, however, did not mention the date when the soviet representatives would leave Moscow.

Alexander Lados, secretary of the Polish delegation during the Minsk conference, said the Polish delegates might start on Sunday, going by the way of Danzig, from which port they would take a steamer to Libau. From there, he said, they would go to Riga by railroad. Other Polish officials said yesterday they did not expect the delegation to leave until Monday or Tuesday.

Progress by Polish troops against Russian Bolsheviks on the front south of Brest-Litovsk are reported in an official statement issued here. It is stated that soviet forces operating between Kamionka-Strumilova and Bysk have been defeated with heavy loss and that Polish troops have crossed to the eastern bank of the Bug and occupied Jaklanowka, crushing enemy forces concentrated in that vicinity. Prisoners numbering about 200 have been taken in this action, it is said.

Bolshevik columns attacking the Polish lines south of Bysk have been repulsed by brilliant counter-attacks, and fighting continues between Chedrown and Rohatin. Polish forces which had been compelled to withdraw slightly in this section have begun a new advance. The situation along the Dniester River is calm, the statement declares.

Missouri Candidate Had Strenuous Campaign.

Washington, Sept. 10.—Here are some of the campaign expenses of G. H. Foree, a defeated Missouri congressional aspirant, which he listed under oath in his expense account filed recently with W. Tyler Page, clerk of the House of Representatives.

"August 1—Postage for 25 letters to influential men in my district, telling that I was trusting to the kindness of the people and the mercy of God to elect me (both failed), 50 cents.

"August 2—For professional services of a tonsorial artist in shaping up the sandy whiskers of an influential son of Erin—35 cents.

"August 3—One jar 'face creme' to fascinating blonde for passing out my cards—35 cents.

"August 3—Another jar of 'face creme' to charming brunette for passing out more of my cards—35 cents.

"August 2—For her work and influence among her many friends and admirers, a pair of open-work hose for a plump widow; the less said the better, special—\$1.

"July 27—For street car fare to summer garden where Tony Steuver and Congressional Committee held election one night a week previous to legal primary and nominated my opponent for Congress in the Tenth District—14 cents."

NO BASIS FOR COX CHARGES HE SAYS

Blair Denounces Them as Insults to Every Thinking American.

G. O. P. WOULD END QUERY

Committee is Divided on Next Step in Procedure. Women Hard to Collect From.

Chicago, September 10.—Concluding his testimony before the Senate committee investigating campaign funds, Harry W. Blair, assistant to Fred W. Upham, national Republican treasurer, declared that he considered Governor Cox's charge of a Republican purpose to buy the election as "the quintessence of insult to every thinking American, Republican or Democrat."

The witness "hoped" that the work of his organization would not be interrupted by further calls from the committee, as they "had something to ask further than what has been presented to me."

Division in Committee

The committee was divided on the question of pursuing the investigation of Governor Cox's charges that millions are being spent by the Republican National Committee to "corrupt" the electorate. Saturday the committee will complete its inquiry here, but after two conferences Thursday the five senators could reach no decision as to the next step.

The Republican attitude, as expressed by Senator Edge, is that every lead offered by Governor Cox and his supporters has been pursued without proving any of what the New Jersey Senator characterized as the "sinister" counts in the Democratic presidential nominee's charges. Senators Edge, Kenyon and Spencer, Republicans, propose that the committee drop the Cox charges and move to Pittsburgh to investigate reports that the liquor interests are taking an active part in the campaign.

The Democratic view, however, as expressed by Senators Reed and Pomerene, is that the Cox charges are being proven, and they desire to go to New York, subpoena Col. William Boyce Thompson, chairman of the Republican National Ways and Means Committee; Reeve Schley, Eastern treasurer, and other Republican leaders, and pursue the investigation further.

The Chicago end of the present inquiry will be practically completed today. Saturday the committee expects to examine several girls from the Internal Revenue office at Grand Forks, S. D., where Democrats are said to have solicited \$10 contributions from girl clerks.

Women Hard to Touch

Mrs. Bertha Baur, of Chicago, ways and means vice chairman for Illinois, told of the difficulties of raising money among women voters.

"We thought that since women had assumed the privilege of the ballot they ought to assume some of its responsibilities," she said, but her figures showed that she had collected \$35,367.57 from only five counties in Illinois and that all, except \$326, had come from Cook county. She said she had tried to appoint vice chairmen in each of the 101 counties of the state, but had succeeded in only 62.

There was one subscription of \$2,000 and 13 of \$1,000 in Mrs. Baur's list. The \$2,000 was received last May from Mrs. John H. Gary, the witness said, and she explained that it was divided between two fiscal years "in accordance with what I then understood was a general plan."

"Did you have any sinister purpose in raising these funds," queried Senator Kenyon, asking a stock question.

"No, sir; it was for the best purpose in the world," replied Mrs. Baur, and she then smilingly assured Senator Pomerene that the remark was not a reflection upon "Us Democrats."

ROOSEVELT'S UNCLE KILLED

Democratic Nominee Loses Relative Through Bolt of Horse.

Poughkeepsie, N. Y., Sept. 10.—Warren Delano, of New York and Barrytown, uncle of Franklin D. Roosevelt, Democratic Vice Presidential nominee, was instantly killed at the Barrytown station of the New York Central Railroad, 21 miles north of here, when his favorite horse, Fell, frightened by the approach of an express train, dashed onto the tracks, late Thursday afternoon.

The whole duty of man is embraced in the two principles of abstinence and patience; temperance in prosperity, and patient courage is adversity.—Seneca.

SHE'S OUT FOR SELF

DOROTHY FROOKS

NEW YORK—This woman Miss Dorothy Frooks of Saugerties, N. Y., is making folks sit up and take notice by her independent campaign to win the Republican nomination for representative in Congress from the 27th congressional district. During the war she served as chief yeoman in the navy and also was a Liberty Loan speaker. She is a member of the American Legion.

SCREEN ACTRESS IS NEAR DEATH

Wife of Jack Pickford Took Bichloride in Alcohol by Mistake.

Paris, Sept. 10.—Olive Thomas, motion-picture actress, is lying in a critical condition at the American Hospital at Neuilly, where she was taken several days ago suffering from mercurial poisoning. An official statement, issued by Dr. Joseph Choate, an American physician, who is in charge of the case says:

"The situation is serious, but recovery is hopeful."

It is learned, however, from a reliable source that the condition of Miss Thomas is extremely critical and that her recovery is doubtful.

Dr. Choate said Thursday that the actress had swallowed a solution of alcohol preparation containing 12 grammes of bichloride of mercury, sufficient to kill 25 men, but added that she had taken it through error. Recently Miss Thomas, it is said, had been suffering from nervous depression and had expressed fear for the safety of her husband, Jack Pickford. According to Dr. Choate it was only through the prompt first-aid given by Pickford, on his return to the hotel where they are staying that Miss Thomas is alive now.

WHO IS THIS BOY?

BRUSSELS—"Who am I?" The Belgium government is trying to help this boy answer that question. The boy says all he knows is that his name is Charles Louis and that his father was addressed "M. Le Prince." He was in Brussels in 1914, but fled when the Germans entered and was taken in charge by a French priest; who took him to America. Now, the boy is back in Belgium trying to find out who he is. He is said to be aristocratic in bearing, speech and habits.

"She can open a telegram without trembling." "That's nothing. I notice nowadays a lot of women are taking upper berths in Pullmans and thinking nothing of it."—Detroit Free Press.

CUTS PRICE ON WOOLENS

Big Mill Company Reduces Selling Rate Due to Poor Demand.

New York, Sept. 10.—An approximate cut of 20 per cent in wool cloth prices by the American Woolen Company was noted at the company's opening of its fall exhibit here yesterday, according to the Textile World Journal. The cut, said to be less than anticipated by the trade, was attributed to the fact that there has been little demand for woollen goods.

BELLED BUZZARD BACK

Visits York County After Two Year Absence.

After a lapse of about two years the belled buzzard has again made its appearance in the vicinity of the York-Adams boundary line. Farmers saw the bird this week at Fuhrman's Valley, about five miles from Hanover.

For many years, reports of the belled buzzard have come from widely scattered sections of the Eastern states. No one knows just how the giant bird secured the bell which evidently hangs around its neck. People have heard its faint tinkle for a number of years in many different locali-

ties. It is supposed that the giant crow was captured in infancy, the bell fastened to its neck or legs, and then released.

DO NOT FEAR INFLUENZA

No Indications of An Outbreak This Year.

Washington, Sept. 10.—There have been no indications of a return of last year's influenza epidemic this winter, the Public Health Service announced Thursday. Each year, it was said, between November and May, a number of cases are reported, but experts of the service do not expect the disease to be as widespread or as virulent this year as in 1919.

CAT CLUE TO THIEVES

Orange Colored Feline Leads to Arrests.

Newark, N. J., Sept. 10.—Chemical analysis of orange colored spots on a water front cat brought recovery of \$300,000 worth of stolen German dyes and the arrest of 17 men, the Department of Justice bureau here announced Thursday.

Government sleuths assigned to solve the mystery of who held up watchmen at a state department warehouse in Hoboken, where 6,000 pounds of German dye as part of Germany's indemnity were being held, carted the dyes away in motor trucks, were attracted by the strange orange color spots on a wharf cat.

A Department of Justice agent caught the cat and took it to a chemist where its orange hair was analyzed with the discovery, it was stated, that German dyes were responsible for its unique color.

The cat was then released and shadowed. Its "home" was said to have been located in a house on River street, Hoboken.

Last week as a result of shadowing visitors to the River street house, Department of Justice agents said they had recovered 3,000 pounds of the stolen dyes on a motor truck in Paterson, and 3,000 pounds more in a Brooklyn warehouse. Arrests followed by two and three.

CONSIDER BELL TERMS

Commission to Meet Again Next Week.

Members of the Public Service Commission will consider in the next week the terms of settlement of the complaints filed against the new rates and regulations of the Bell Telephone Company agreed upon by counsel for the complainants and the company, in which a reduction of over half a million dollars in revenue was accepted by the company. The proposals were submitted to Commissioner James S. Benn by C. K. Robinson, representing more than 100 complainants, and R. V. Marye, of the Bell Company, after representatives of Philadelphia department stores had testified as to the situation on private branch exchanges for which the company advanced rates. Charles Walter, of Chambersburg, objected to the proposed agreement because it did not sufficiently cover the rural situation. Commissioner Benn said the commission would use the proposals as a basis for speedy determination of the actions and would so arrange matters that the door would not be closed against any complainant.

SCOLDS WOMAN HE HIT

Autoist Returns After Accident to Reprimand Woman.

Mrs. Charles Hess and daughter, Round Hill, were thrown from the buggy in which they were riding when struck by a touring car, and received minor injuries. The accident occurred at Cross Keys while Mrs. Hess and daughter, Mrs. Mary Nace,

were returning from a visit to the home of Ammon McIntyre, near Lilly's Mill.

After the accident the driver of the car stopped and returned and gave the women a reprimand for driving in his path. The front wheel of the buggy was badly damaged. The number of the auto license was taken and the driver will be notified to make satisfaction for the accident.

FINDS CLOTH IN LEG

Soldier Has Undergone 15 Operations On Limb.

Oil City, Sept. 9.—Andrew Repman of this city underwent in St. Francis Hospital, Pittsburgh, Tuesday the fifteenth operation on his leg since he has returned to this country following the World War. He was a member of Company D, One Hundred and Twelfth Infantry, and was wounded during the fighting in the Argonne. In the last operation the leg was again opened and a part of the lad's uniform was found imbedded in it. It is expected that he will recover.

CROWDS GREET HARDING

On Board Senator Harding's Special Train, Sept. 10.—On his way from his first campaign trip Senator Harding, the Republican nominee for President, declared himself highly pleased Thursday with his reception by the people of Minnesota.

What the result might be on the future plans of the nominee was not revealed, but speculation as to the possibility of more extensive departures from the front porch was enlivened by expressions of satisfaction from Senator Harry S. New, of Indiana, head of the party's speakers' bureau, and Harry M. Daugherty, a member of the campaign committee, both of whom are in the Senator's party.

ROAD BUILDING
PROGRESS SLOW

(Continued from First Page.)

Kane's Store 8.74 miles west.

Next on the list is the Continental Construction Company, of Baltimore, who have laid 8121 feet of concrete on the Emmitsburg road, south of Gettysburg. Their job consisting of 5.63 miles extends from the Peach Orchard to the Maryland State line.

The McDonald Construction Company, who have the contract for the Gettysburg streets, will probably be the only company to complete their job this fall. All of the 1.46 miles of concrete work have been finished for some time, and more than 3300 feet of asphalt have been put down.

The George D. Merdinger Company, on the Harrisburg and Carlisle roads, has the greatest amount of work yet remaining to be done. On the 4.407 mile strip of the Carlisle road, 4578 feet of concrete have been laid. No concrete at all has been poured on the ten mile strip of the Harrisburg road. The part under contract begins where the M. Bennett and Sons stopped and extends to the York county line. Grading work has been completed for a distance of two miles.

Work is proceeding satisfactorily on the York and Franklin county roads, according to the Highway officials. Operations in these counties are not so extensive as in Adams, and therefore the lack of supplies and labor has not been felt so much in those places.

The stretch of the Lincoln Highway in Franklin county from Fayetteville to Chambersburg has been completed by the Souder Construction Company. In all there are 5.69 miles in the

stretch. It is now ready for the final inspection by State Highway officials.

Another contract to the Souder Company on the Lincoln Highway covers the 8.73 miles from Kane's store to Fayetteville. Up to the present time, concrete has been laid from Kane's store to the summit, a distance of 9786 feet.

Lanthorne and Company have practically completed the eight mile stretch of the Harrisburg road in York county. Only a few brick remain yet to be laid on the grades.

CURIOSITY

CURIOSITY is an effort to secure information which belongs to somebody else.

There is a great deal of information lying around loose which would not look well if printed on the front page, and if it were not for curiosity it could look around on the four corners for weeks at a time without being picked up and woven into a law-suit. There is considerable complaint about the activities of curiosity, but it probably keeps more people from helping build good roads for the state than the prickings of conscience.

Curiosity is caused by the nose becoming elongated and prying into other people's business. Many a man

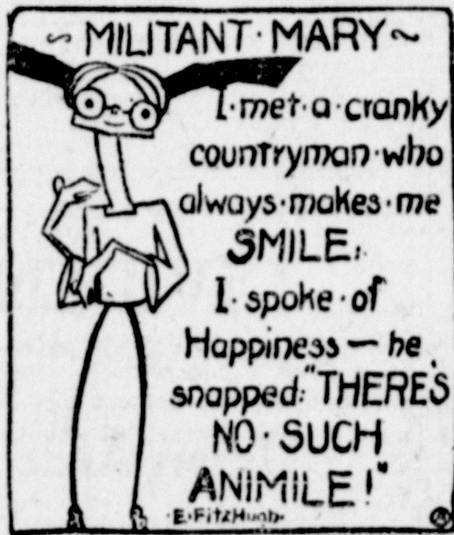

An Effort to Secure Information Which Belongs to Someone Else.

has begun life with a nose of normal dimensions, and after becoming addicted to the curiosity habit has sprouted a proboscis longer than the ant-eater. There have been instances where this roving tendency has been resented by its victim, who pushes the nose back to its proper location with an irate fist.

Curiosity should be guarded against especially in the case of husbands who were formerly in the prize ring. It is a dangerous matter to pry into the personal transactions of a citizen who carries a left upper-cut and enough ready money to pay his fine. Scores of happy homes have been broken up by the gossip whose curiosity has run over the dam and convinced a credulous wife that she had married a gay Lothario instead of a master bricklayer.

Curiosity which is not fenced in can be cured by reading the parable about the mote and the beam and training the nose to keep on the sidewalk. There would be less baleful curiosity at work in this country if people would look inside a little oftener and not worry so much about how their neighbors can afford pork tenderloins twice a week. If nobody would go off his own premises when he feels like doing a little promiscuous prying, there would be better feeling and fewer baseballs cast in the lodge.

BENDER WINS THE EASTERN FLAG

New Haven, Managed by Former Athletic Star, Beats Out Bridgeport.

The New Haven Club, managed by Charles Albert Bender, former star twirler of the Philadelphia Athletics and running mate of Eddie Plank in the winning days of Connie Mack, copped the pennant in the Eastern League several days ago. Bridgeport, the runner up, is managed by "Big Ed" Walsh, former White Sox star. Bender took his regular turn in the box along with the other New Haven pitchers, and won a large percentage of his games.

Gettysburg fans will remember that Bender managed the Richmond team of the Virginia League in the second half of the 1919 season. Richmond won the pennant due to the fine pitching of the Chippawa veteran. Bender's team was credited with 40 wins and 19 defeats in the final standing of the league for that season. Of the 59 games played, Bender pitched 25. The records show that he won 21 and lost but 2 for the high percentage of .913. In fact, he turned in over half of the victories credited to his team.

Fordson

TRADE MARK

Farm Tractor

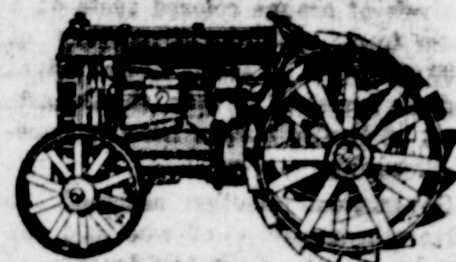

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty percent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increases production, saves labor—produces more or less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem.

The Fordson's first cost is low; and the after or operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world.

We are Fordson dealers.

Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your own farm.

HORSE'S KICK FATAL

Injuries received when he was kicked by a horse on the farm of Earl Stull, near Ringgold, Franklin county, September 1, resulted in the death of Frank Keller in the Hagerstown Hospital Thursday. During the war the young man was a member of the 316th Infantry, 79th Division, in which a large number of Adams county boys fought in France.

An operation following the accident disclosed that several organs had been so crushed and bruised that no hope for the recovery of Mr. Keller could be entertained, and he lingered a week in great pain.

RETURN OF GRAND OPERA

New Yorkers to Hear "Carmen". Theatre Closed Decade.

New York, Sept. 10.—Grand opera will return to the stage of the Manhattan Opera House here September 20 after a ten year absence, with the offering of Bizet's "Carmen" by the San Carlo company. This will give New York three grand opera organizations during the coming season, the others being the Metropolitan and the Chicago grand opera companies.

The original purpose of the Manhattan was to provide a home for grand opera, but ten years ago its owner, Oscar Hammerstein, made a deal eliminating himself and his theatres from the opera field for a decade. His widow acquires possession of the property September 1, marking a return of the house to its former use.

ALWAYS AT IT.

I saw her on the train—
Sittin' Knittin'.
She had stitches on the brain—
Sittin' Knittin'.

It was not a sturdy sock
For some member of her flock,
But some dodo for a frock—
Sittin' Knittin'.

Never saw her but she was
Sittin' Knittin'.
Guess that's all she ever does—
Sittin' Knittin'.

But you when her hair is hoary
And she's tatted home to glory,
It will be the same old story—
Sittin' Knittin'.

Evil.

Evil is what the love of money is the root of.

The root is the lowest part, of course. There is less unanimity of opinion as to what is the height of evil.

If everything else thrived as well under opposition as evil does, this would be a far different world.

Evil is also what men do that lives after them, if Bill Shakespeare is to be depended on.

Somebody a long time ago labeled a lot of things "evil" and we have stuck to the labels pretty faithfully.

But most of the things they marked "evil" should have been placarded "foolishness."

People who exercise all the intelligence they have do nothing that is really evil.

And they have a fine time, with no big heads or next mornings or other popular brands of hang-over.

Most of the time when we ask, "Is it right?" we could get the answer more suddenly if we said:

"Is it intelligent?"

Many things once labeled evil are not so.

We were brought up to believe that card playing is evil, intrinsically.

Also dancing—see, whiz! Dancing was the worst thing there was!

Murder was a Sunday school exercise compared with it.

If one plays cards when one should be and could be doing something helpful and necessary, it is wrong.

So would court hoing or onlon weeding be, if you were neglecting something more important for it.

Dirty dancing.

Although we do believe it wrong for anybody to do it as badly as we do. A dancing teacher told us so, once. This isn't all we know about evil. But it's all we're going to tell here.

Making Up Time.

Father Time was looking anxiously at his reflection in the mirror.

He gazed at the bits of pigment in the pores of his skin and rubbed viciously at the rouge-marks on his lips and the sooty place in his eyebrows.

"It's almost impossible for me to keep a decent complexion," he complained, bitterly. "Those railroad train men are always getting behind me and then making me up."

AN ORDINANCE

Prohibiting the injuring, damaging, opening or destruction of any paved street, square or highway, or any part thereof, and providing penalties for violations.

Be it enacted and ordained by the Burgess and Town Council of the Borough of Gettysburg, Adams County, Penna., and it is hereby Ordained and Enacted by authority of the same:

SECTION 1—That no person, firm or corporation, his or their agents or employees shall in any manner injure, damage, open, or destroy any paved street, square or highway, or any part or portion thereof, within the limits of the Borough of Gettysburg aforesaid, and especially by

(a) The passage of traction engines and other heavy vehicles on or over the same, whereby the wheels, cleats, spikes, or any part thereof penetrate or tear up the paved surface;

(b) The dragging or drawing of logs, trees, timber, or other similar articles whether composed of wood, metal or other substance, on or over the paved surface;

(c) The building of fires or the burning of leaves, rubbish or any other material on or over the same.

(d) The placing or allowing to run, leak or be placed on the paved surface any oil, gasoline, kerosene or any other derivative from petroleum or its by-products.

(e) The opening or excavating in, through or under the same, without the permit expressly granted by the Burgess in accordance with existing Borough Ordinances;

Provided that the Burgess may permit the passage crosswise over any paved street of traction engines and other heavy vehicles or heavy objects by the parties so desiring by planking at his or their own expense the entire width of the street to be crossed, and the crossing and planking to be effected so as not to block traffic more than one-half the width of the street at any one time.

SECTION 2—Any person, firm or corporation, his or their agents or employees, violating any of the provisions of this Ordinance, whether specifically mention in (a), (b), (c), (d), (e), or not, shall on conviction thereof forfeit and pay a fine of not less than Ten nor more than One Hundred Dollars, with costs to be collected according to law, and on default of the payment of the fine or penalty imposed and the costs, the defendant shall be sentenced and committed to the Borough lock-up for a period not exceeding five days, or to the County Jail for a period not exceeding thirty days.

EVERY NIGHT THIS WEEK ONE OF PARAMOUNT'S LATEST AND BEST PICTURES WILL BE SHOWN.

TODAY AND TOMORROW

"THE GREATEST FEATURE OF THE YEAR"

It's a big picture—big in story, big in stars, big in production. It's the strangely thrilling romance of a Russian dancer in America. A story of passions that veer onto tragedy, and of human beings who love and struggle and finally win happiness. A story of life, teeming with drama, filled with suspense.

The picture has been lavishly staged, sumptuously gowned. It's a Paramount Arctcraft—that assures you of the finest kind of production. And an exceptionally able supporting cast enacts the minor roles. It's a picture you will enjoy.

ALSO

"ALMOST MARRIED"

A two reel Comedy.
